Turns Over 200 Theaters to Chain of 500 With Asserted Possibility 3000 More May be Added

[EXCLUSIVE DISPATCH]

NEW YORK, Jan. 7.—The giant combine of motion-picture theaters which it has been known that Adolph Zukor has been contemplating for some time appeared today to be nearly materialized. The first moves looking to the merger were begun last December, when the Famous Players-Lasky Corporation formed a new corporation to handle its 200 first-run theaters throughout the country and called the new business the Public Theaters Corporation.

BERLINS DODGE IRATE MACKAY

Not Present at Glittering Vanderbilt Wedding

Reconciliation Chance Thus Goes Glimmering

Two Dinner Parties Set for Young Couple

(EXCLUSIVE DISPATCH)
NEW YORK, Jan. 7.—Mr. and Mrs. Irving Berlin remained secluded in their home at 29 West Forty-sixth street throughout today, despite reports widely disseminated that they had left the building secretly.

The fact of their presence in the bungalow room of the song writer was made evident soon after 3 p.m. when a modiste arrived in a taxi-cab with a dozen or more gowns for Mrs. Berlin's inspection. She needed a gown for the party, the woman said. Later she emerged, saying the former Ellen Mackay had selected a dinner gown. The party was given tonight for thirty friends of Berlin. Tomorrow night there will be one at the Ritz-Carlton in Atlantic City for sixty friends of Mrs. Berlin.

Uncertainty as to the movements of the couple became evident when about 4 p.m. the time Mrs. Berlin was expected to emerge on her way to the Consulate Vanderbilt-Bari Taylor Smith wedding, ten detectives and a squad of uniformed men opened a way through the crowd from the Berlin door to the spot where their motor car was expected to arrive. It did not come, and Mrs. Berlin remained away from the wedding to which she had been bidden. About 4:30 p.m. she appeared at a window high up and waved to the photographers below.

BREACH STILL OPEN
So those persons who expected the next chapter in the romantic development would be written or enacted at the high society nuptials were doomed to disappointment. And that the social event did not contribute anything to the adjustment of the troubles Mrs. Berlin has encountered with her parental ancestor.

Clarence H. Mackay was there, to be sure, to see the granddaughter of his father, an old partner in the 49 days marriage. Which was met, since it chanced that one day in the long ago a salmon-keeper of the name of William T. O'Brien, who had a place on the San Francisco waterfront, grubstaked John W. Mackay and James G. Fair, grandfather of Miss Vanderbilt, that they might seek wealth in the hills.

O'Brien, picked well, and the two men declared him in on the Comstock lode, the wealthy story of which is well known. But the carefully dressed man who came today to represent the Mackay end of the grubby venture was, sad of eye. He found occasion at times to dry his eyes with a handkerchief—a fashion supposed to be reserved for women at weddings. And he kept

A necklace of large square-cut diamonds, set in a platinum mount, was a wedding gift in the Vanderbilt family for the second time today. It was the gift of Mrs. William K. Vanderbilt to her daughter Consuelo.

Mrs. Vanderbilt herself received as a gift from her mother two diamond and emerald necklaces, one of which she wore when she was married to Mr. Vanderbilt.

British lion just when they are about to inflate prices.

WANT AN ALIBI
"They want an alibi to gouge the public so they bark at the East India rubber planter, whose empire protects him better than the Napoleonic Sphinx of the White House, who campaigned on the back of a cow to protect our farmers."

"This last blast of Hoover is propaganda, plain as the nose on the face. He attacks Great Britain and on the financial pages the trade writers solemnly repeat the charge. On the cover is the propaganda, on the inside are the inworks."

"The whole automobile trade expects higher tire prices. The tire companies intend to take from the consumer what they would otherwise save by tax reduction."

Mr. Black asserted the price of crude rubber has little to do with the increase in tire prices except to furnish a convenient alibi for the extortionists."

GIVES HIS IDEA
He declared that the rubber inquiry probably aims at having Secretary Kellogg pass a bill of complaint to the World Court against the British, adding:

"Then Great Britain will come into the World Court with Sir Robert Horne, who has been terminated by the termination of his immediate means of support is regarded by Mr. Swing, so he must be virtually destitute to the Swing-Johnson bill."

FEARS 'DAMAGE'
It is not possible, the Imperial Valley legislator asserted, in his statement, "to tolerate the damage that may ensue."

The whole tenor of Mr. Swing's remarks seems to lean strongly toward the suit for the defeat of his measure.

Severing the loss of a few of his constituents, he has several bills in Washington apparently paid from a source other than the treasury of Imperial county. Mr. Swing said:

"Sad as it may seem, it takes more than merit to get action by the California legislature. It is necessary to have a few bills in the legislature, education, agitation and socialization."

This led the California Representative to embark on a long tirade on the function of lobbying as an art, and he continued:

"The lobbyist is a man who is brought to the attention of the public officials in an earnest, convincing and persuasive way—not only brought to their attention, but kept constantly before them until action is taken."

CALAMITY HINTED
He added the suggestion that unless the Colorado river is solved at an early date a calamity may befall the valley.

In this connection, of course, Mr. Swing is joined by many others who have testified before House and Senate committees in favor of Mr. Swing's specific proposals for solution.

The committee will meet next Monday, and it is believed, a committee program for the session will be arranged. Indications are that strong opposition will develop from representatives of the Colorado upper basin States, to any attempt to give the Swing position.

With \$2,000,000 in the first public utterance on the Colorado River question since the seven-State committee was formed at Santa Fe, N. M., in 1922.

"If the basin States could enter into an agreement among themselves to develop the Colorado river such procedure would have taken definite form seven years ago," he said. "It has become a national question."

Teuton Minister Explains Refusal of Wilson Prize
(BY CABLE-EXCLUSIVE DISPATCH)
BERLIN, Jan. 7.—Foreign Minister Stresemann last night confirmed news from New York that he had been offered the Woodrow Wilson Foundation prize in recognition of his peace labor at Locarno, but denied that he had declined the honor because of President Wilson's failure to enforce his fourteen points in Germany's favor. Through a Foreign Office spokesman, Stresemann made the following declaration:

Mr. Davis, president of the foundation, desired to distribute the prize to Stresemann, Chamberlain and Brandt on President Wilson's birthday, December 28, 1925. Acceptance was made as an additional honor upon the recipients' personal presence at the presentation ceremony in Washington or New York. The German Foreign Minister, owing to the political situation in his country, considered it impossible to go to America, and, therefore, was obliged to decline the invitation. He assumed no political position whatever in the matter."

It was added that Wilhelmstrasse understood that the British and French Foreign Ministers had declined on the same grounds. Whether or not Stresemann would accept the prize if it could be presented to him in Berlin could not be ascertained.

House Committee Discusses Regulatory Bill

(BY A. P. NIGHT WIRE)
WASHINGTON, Jan. 7.—International phases of radio regulation were considered today at the hearings by the House Merchant Marine Committee on the White Bill for control of air communication.

Mr. J. J. Momborg, of the Army Signal Corps, said this question was a matter for extensive study as the government might not be able to enforce the power it claimed over the ether.

Representative Davis, Republican, Tennessee, expressed the opinion that the air was in the category of waters, which were international, but subject to regulation by any nation when shipping approached its boundaries.

W. G. Laque, of the Independent Wireless Telegraph Company, contended that radio control should be left solely in the hands of the Department of Commerce. The bill, in addition to providing for and defining departmental control, would vest judicial questions in a commission of nine.

Emil J. Smith, of the Inter-City Radio and Telephone Company of Ohio, charged that the Department of Commerce had discriminated against overland wireless services in their competition with the telephone and telephone lines.

When Solicitor Davis of the Commerce Department said such a charge was "utterly false," Mr. Smith admitted he had no personal knowledge of such discrimination, but said he had been informed of it.

UNIVERSITY DRAWS SWORN

Other Students Than Editor of Offending Magazine
George Washington Face Expulsion

(BY A. P. NIGHT WIRE)
WASHINGTON, Jan. 7.—George Washington University today was considering expulsion of other students connected with the Lash, new and unofficial publication of the school, when John R. Bromwell, has been dismissed.

Bromwell, whose first issue of the Lash was described by William Mather Lewis, president of the university, as "positively indecent," was contemplating court action to gain reinstatement, and declared he would print another and "hotter" edition of the magazine.

It was announced today that the university would appear the two letters which caused a sensation in the Rhinelanders' annual suit in New York, and which were not published.

WASHINGTON TARGET
Bromwell was dismissed by President Lewis when he refused voluntarily to withdraw and after accepting full responsibility for the publication. Dr. Lewis said that the Lash generally has been described as "exceedingly bad taste," but he objected particularly to an article attacking the moral character of George Washington, while he lived at Mount Vernon.

The university carried the name of the Father of His Country, he declared, and the article, besides being obscene, is unpatriotic.

Associates of Bromwell whose names are being sought by university authorities, were said to be rallying to his support in an effort to have him reinstated and obtain authority to continue publication of the magazine. Bromwell contended that his magazine was not a campaign against an all-powerful fraternity clique ruling the university.

"FRATS" AIMED AT
The Lash was produced, an announcement in it said, to lodge in plain and unmistakable language a protest against the existence of the fraternal clique which dominates all student affairs at the university.

For many decades, it continued, "the university has been hampered by a few snobs who have attempted to run or ruin the school. Thus far they have been successful in both, with the result that George Washington University is known only in its immediate vicinity."

Another announcement disclosed that a previous issue of the Lash was attempted, but was abandoned after printing because it offended the aesthetic sense of some of our mid-Victorian and drew from them such a shower of criticism that its distribution was impossible.

Wires Attorney He Will be Chicago Next Week
His Wife Declared to be of Danger from Poison
She Worries for Fear Voice for Singing Ruined

EXCLUSIVE DISPATCH
CHICAGO, Jan. 7.—Harry Thaw shows indications of coming to the front and doing something worth while for his divorced wife, who saved him from the electric chair, and who, weary of the cruel slings of fate, made her second attempt to end her life by swallowing poison last Tuesday morning.

Thaw wired his attorney, Charles Wharton, that he will arrive in Chicago early next week. It is known that William H. Chamberlain, private detective, has been receiving large fees annually for "keeping tabs" on Evelyn, who was in Chicago. It was through Chamberlain that Thaw learned of her condition soon after she was taken to a hospital.

The coming of her husband, who has shown in her behalf a long period of years, and by his special interest in her, has been paying Evelyn through a Pittsburgh attorney, \$10,000 a year for a number of years. It was said today that Evelyn had been suffering from a nervous condition since her divorce, and that she was now out of danger. A statement of her throat, had been made by the police, convinced physicians that there is a chance of saving her singing voice, which is now her sole asset.

Thaw, her 35-year-old, handsome, gentlemanly husband, is permitted to

women afflicted with scalp troubles were victims of "Alopecia Pitirodica," a serious scalp disorder often mistaken for common dandruff, which leads to baldness in from two to seven years.

The Danger Signs of Alopecia Pitirodica

Neglect

The affliction occurs in two forms: the first starts with a slight scaling of the scalp, producing dry, flaky scales, commonly called dandruff, making the hair dry and brittle; the second stage is greasy scales, making the hair oily and stringy. Both forms cause falling hair. Sometimes a terrible itching is also noticed. This stage lasts from two to seven

Joseph Knowles in Nature Costume

(EXCLUSIVE DISPATCH)
SEATTLE, Jan. 7.—Joseph Knowles, well-known nature man, is in the wilds of the Olympic Mountains preparing for another spectacular return to nature such as he made several years ago. Knowles has chosen the Olympics as the wildest section remaining in the United States. An abundance of game, berries and edible roots which served the Indians as food long before the coming of the white man, is to be found in the section, and Knowles, armed only with bow and arrow, should experience no difficulty in keeping his larger well filled. The icy mountain streams are filled with trout, and fur-bearing animals which must supply the natureman with his clothing are to be encountered everywhere. Just how long he will remain in the wilderness, Knowles has not announced. It is known, however, that a male companion will accompany him.

COURT IN RAIL CASE
HITS RIP VAN WINKLES

JUSTICE HEARING DENVER
AND RIO GRANDE SUIT
HITS CLAIMS TOO OLD

(BY A. P. NIGHT WIRE)
NEW YORK, Jan. 7.—Supreme Court Justice Mullan, sitting in the suit brought by the minority stockholders of the Denver and Rio Grande Railroad Company against the former directors of the road demanding an accounting, today classified the plaintiff as "Rip Van Winkles."

The remark came after introduction of voluminous evidence dealing with previous testimony and decisions in other cases resulting since the road's reorganization. He asked counsel for the minority stockholders if he did not feel that they had been guilty of laches, which means "sleeping on one's rights."

Justice Mullan did not forecast whether or not he would permit the plaintiffs to amend their complaint to make the reorganized Missouri Pacific and the Denver and Rio Grande railroads defendants with the former directors of the Denver road. In referring to a decision in 1921 barring the minority stockholders from the courts on the grounds of laches, Justice Mullan said:

"People can't go to sleep like Rip Van Winkle and then wake up and present old claims and expect recognition."

Harvey M. Toy Tells Gathering
Huge Fund Required

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, Jan. 7.—The movement to complete the Redwood Highway, running from Sausalito to Southern Oregon, was given added impetus here today at a meeting of a number of interests who are concerned themselves with the future of the artery.

Toy announced that the State had but \$1,000,000 remaining to spend on the Redwood Highway, while the State of Oregon had completed plans to complete the Roosevelt Highway, the connecting artery in that State. It was announced that the Save the Redwoods League had a fund of more than \$1,000,000 to purchase tracts of redwoods along the highway.

STOCKTON CLUB BEGINS
POLICE FORCE SURVEY

HEARS ONLY EIGHT OFFICERS
AVAILABLE FOR ACTUAL
PATROL DUTY

(EXCLUSIVE DISPATCH)
STOCKTON, Jan. 7.—The Stockton Lions Club has undertaken an investigation into police affairs in this city, with the aim of obtaining better police protection. Dean C. M. Dennis of the College of the Pacific and a resident of Pacific Manor where numerous robberies of homes have occurred during recent weeks, brought the matter to the attention of the club, stating that his home had been entered three times within six months and that Chief C. W. Potter of the police department told him that "nothing could be done about it on account of a limited police force."

There are fifty men in the department, Dennis pointed out, who are divided into three shifts. After desk sergeants, lieutenants and traffic officers are deducted, there are only eight and sometimes, six officers actually on patrol duty.

His statements opened the eyes of many to the present state of affairs and the club members voted to place the matter in the hands of a committee further to investigate police protection. Chief Potter, said Dennis, has asked the City Council for two successive years for more men for the department but without success.

STATE BUILDING LAW
AMENDMENT PLANNED

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, Jan. 7.—As the result of the recent collapse of a building here in which four workmen were killed, committees will meet in San Francisco the 18th inst. and in Los Angeles the 22nd inst., to adopt an extension to building laws of the Industrial Accident Commission asking stricter regulations for excavations. The committees will be composed of representatives of the Industrial Accident Commission, construction engineers, contractors and organizations interested in building.

(EXCLUSIVE DISPATCH)
ATTLEBORO (Mass.) Jan. 7.—Edward J. Dalton, who rescued two boys from drowning on two consecutive days last summer and was publicly honored by the Chamber of Commerce for his bravery, has been arrested by the North Attleboro police and charged with the larceny of \$85-worth of automobile parts. He was released later on bail furnished by John McIntire.

Dalton has been quite prominent in print during the past year. Following his rescues in August, he was awarded a life saving medal by the Massachusetts Humane Society at a public dinner. Later he caused a sensation by eloping to New Hampshire with a Boston girl, and in October had a narrow escape from death in an automobile accident in Norwood.

(EXCLUSIVE DISPATCH)

VISALIA, Jan. 7.—Jim McAllister, 37, shot and killed Frank Gifford, a neighbor, in a case subject to trial for murder in the Tulare county grand jury chamber today.

McAllister, who gave himself up to Tulare county authorities following the killing of Gifford, has since been held in the Tulare county jail on charges of murder, preferred by Gifford's father-in-law. His story of "self-defense" and Gifford's statement, secured in a Fortville hospital, are directly opposite. There were no witnesses. Thus, District Attorney Glendon, who feels that recommendation of the grand jury is of vital importance.

It is declared that an appeal will also be presented to the grand jury from Mrs. Laura Cook, who is the sister of McAllister, that she be permitted to take her brother back East to live with her. The sister, who is a resident of the state of California, if the grand jury should feel this was a just course to pursue, the Cooks have been here and McAllister is declared to have readily agreed to this plan if it meets with approval of the grand jury.

Disposal of the McAllister property upon which is the house of McAllister, was shot to death by Alvin Harding a year ago as the climax of a mounting feud. Harding pleaded self-defense and was cleared. It is declared that shooting of Gifford by Jim McAllister had no connection with their quarrel.

WAGE WAR AGAINST
HIGH SCHOOL "FRATS"SAN DIEGO AUTHORITIES TO
STRICTLY ENFORCE STATE
LAWS

(EXCLUSIVE DISPATCH)
SAN DIEGO, Jan. 7.—Out of the clouds that have been gathering for some time at the San Diego High School has come a flash and a rumble, and four youths have been suspended on charges of being affiliated with fraternities in violation of the State law.

Irvin Chase, Arthur Ferguson, George Caldwell, and Norman Kams are the four ejected, and Principal Glenn O. Perkins has taken the matter up with District Attorney C. C. Kemper. Kemper today promised to present the facts at the next meeting of the county grand jury, and if it is revealed that any of the national or local fraternities with chapters in San Diego are attempting to bring high school boys into their organizations, prosecutions under the State law are promised.

Supt. H. C. Johnson of the city school system has pledged his support to Principal Perkins in his campaign against high school cliques and will call a meeting of the Board of Education if it is found that the suspended students are guilty of fraternal membership.

There are rumors that many of the high school athletes are fraternity members and Principal Perkins has announced his intention to call them all into his office for examination. He declared today that no matter how necessary they are to the various teams they will not be permitted to remain in the school if charges of fraternity membership are substantiated.

PLAN TO RAISE FUND
FOR CATHOLIC SCHOOLREDLANDS DEANERY ENTERS
INTO CAMPAIGN FOR
MONEY

(EXCLUSIVE DISPATCH)
REDLANDS, Jan. 7.—Plans for the part the Redlands Deanery of the Catholic Church will take in the raising of a fund of \$10,000 to establish in Los Angeles a junior seminary were made today, when a meeting of the deanery was held here with Monsignor T. J. Fitzgerald, its dean.

There were thirty priests of the deanery here and also Archbishop Hanna of San Francisco and Bishop John I. Cantwell of Los Angeles. The funds will be raised in the diocese of Los Angeles and San Diego, where there are 150,000 Catholics. It is planned to establish the school, which will be for the purpose of preparatory training for boys who wish to enter the priesthood in the diocese of Los Angeles, and the money to be raised will be used in erecting the building.

Bishop Cantwell told of his recent visit to Pope Pius, who knew of the great growth of the church in Southern California, a growth which has been without precedent in any part of the country. The pope urged that the diocese take up at once the establishment of such a school, although he realized that all the funds for educational purposes have been expended. He urged an appeal to the people and deans are now being made for the campaign, which, it is believed, will result in the raising of the fund and the establishment of the school by the end of this year.

Bootlegger's Mash Ruins Reputation of Inglewood Goat
and Results in Arrest of Animal on Charge
of Intoxication

(LOCAL CORRESPONDENCE)

INGLEWOOD, Jan. 7.—A busy call implored the aid of the constable's office to subdue an alleged party billy goat, early today, came to the ears of Constable Harry Grigsby of Inglewood township. The call came from the vicinity of Rosecrans and Williams streets and was to the effect that a goat was behaving in a scandalous and unbecomingly manner.

Taking with him his trusted friend, Deputy Constable Harry Amend, the officer, hastened to the scene, there finding his worst suspicions realized. Billy, the goat, was seen to be in a state of much, in a nearby bootlegger's discarded corn mash. In fact, to put matters badly, the goat was drunk. According to witnesses, he had been dancing a sort of Charleston in the middle of the road shortly before the arrival of the officers. When sighted by them, however, he was standing on

the profaning the interior of his big inclosed car with the conflicting fumes of goat and bootlegger. The animal was forced to stand on the running board and also held there on the wriggling and exhalated animal. Inglewood was too far for such a perilous journey, so the officers turned toward Hawthorne, where the goat and the car were given over into the custody of Chief Thorpe of the Hawthorne Police Department.

ROBBER COMES BACK

By a "Times" Staff Correspondent
GLENDALE, Jan. 7.—Returning to the scene of a former robbery, the bandit who several weeks ago held up and robbed a branch of the Van De Kamp Bakery at 1212 East Colorado street, last night walked into the store again and collected \$190 in cash.

After he had robbed the store a month ago the bandit learned from the published accounts of the hold-up that he had overlooked a large amount of cash that was hidden in the back room, and when he had finished looting the cash register last night he compelled two saleswomen, Margaret and Marie George of 214 East Garfield street, to show him where the money was hidden in the rear of the store. The woman assisted at the same bandit was responsible for both robberies, and this claim is strengthened by the remark of the bandit that he was sorry he had overlooked the money in the back room the first time but that he wanted it last night.

Pasadena Man Must Answer Girl's
Charges

By a "Times" Staff Correspondent
PASADENA, Jan. 7.—Charged with an attempted attack on Isabelle Olson, 8-year-old Pasadena girl, Frank Corbin, 35 years of age, was bound over to the Superior Court, and bond fixed at \$5000 following his preliminary hearing in Justice Court here today.

The little girl, small for her age and pretty, testified in court this morning, describing the asserted incident mentioned in the complaint. Her testimony was admitted by the court, after arguments between the opposing attorneys. She lives at 185 North Vernon avenue.

Corbin, who is a neighbor, living on West Walnut street, appeared nervous during the hearing, but offered no testimony. At the time of his arrest, he told detectives, he was employed as a night watchman by the Los Angeles Creamery Company.

TALKS CHILD HYGIENE

TULARE, Jan. 7.—Dr. Ella Beebe of the bureau of child hygiene of the State Board of Health, will be the principal speaker at a regular luncheon meeting of the District Public Health Association at Hotel Tulare, Saturday. Nurses and social service workers of Fresno, King, Kern and Tulare counties make up this organization. Dr. Beebe will speak on "Child Hygiene."

This organization was formed three years ago and this session will be the first held in Tulare for some time. Members of the Parent-Teacher Association and mothers of local school children will also be in attendance.

PROPOSE NEW HIGHWAY

(LOCAL CORRESPONDENCE)
GLENDALE, Jan. 7.—Plans to establish a wide boulevard running from Filtridge on the east to Lankershim on the west were initiated last night at Verdugo City, when the Glendale avenue improvement association was formed, with F. E. Newport, well-known real estate broker, as the president of the association. The proposed highway, which will have a width of ninety feet for the greater part of its length, will follow Honolulu avenue to Tulare, where it will branch through Tuna Canyon, following a 100-foot right of way to its western terminus.

FOR AUTO STEALING

By a "Times" Staff Correspondent
LONG BEACH, Jan. 7.—John Carr and Rex T. Quinn, arrested in Santa Barbara Tuesday and held for Long Beach police, were returned here today by Detective Sergeant Gott and Ditts where they will face charges of stealing an automobile. Police charged that the pair stole a car in Long Beach belonging to George Sturges, a 100-foot right of way to its western terminus.

Bishop Cantwell told of his recent visit to Pope Pius, who knew of the great growth of the church in Southern California, a growth which has been without precedent in any part of the country. The pope urged that the diocese take up at once the establishment of such a school, although he realized that all the funds for educational purposes have been expended. Telephone Girl at Anaheim Sends Aid to Woman
Who Was Unable to Call Help

(EXCLUSIVE DISPATCH)

ANAHEIM, Jan. 7.—The popular idea that telephone girls spend their time doing nothing but getting wrong numbers was proven all wrong by a story which came to light here today.

It was 7:40 in the morning and the business rush of the Garden Grove exchange had not begun. Miss Mabel Norcross was on duty. Presently a light showed on the board. To Miss Norcross's polite "number please" inquiry she received a mumbled, unintelligible reply and then the light flashed again, and the same result followed.

Beyond the fact that the party trying to get through central was a woman the operator knew nothing. The light came on again and the board was again flooded with a body light and fall. Running through her list of subscribers, Miss Norcross decided that the caller was the woman who had been "plugged in" on the Elliott number.

Mrs. Elliott ran hastily to the home of her neighbor, where she found Mrs. Charles George in a state of unconsciousness on the floor near her telephone where she had fallen after suffering a stroke. The receiver was still down. Mrs. George died before regaining consciousness.

FROSTS VISIT SPAIN

Foreign Citrus Crop Damaged by
Cold Weather

(EXCLUSIVE DISPATCH)
REDLANDS, Jan. 7.—Leaders in the citrus industry here today expressed belief that the California fruit growers are assured of good prices for the fruit yet to be shipped.

It is predicted that high prices are based on a cable dispatch received in Redlands this afternoon by the Mutual Orange Distributors from the United States Consul at Valencia, Spain. Consul Ward stated that the "whole orange district" is severely injured by frosts except few spots. The newspapers in Spain estimate the frost damage at 40 to 50 per cent of the present crop, according to the cablegram. The crop, however, was exceptionally large this season, the consul declared.

MUST STAND TRIAL
ON SERIOUS CHARGE

ALHAMBRA, Jan. 7.—Jesse Richey of 1419 West Forty-seventh street, Los Angeles, must stand trial in Superior Court on a charge of attempting to assassinate Helen Moore, 17 years of age, of 1222 West Fourth street, Los Angeles.

A preliminary hearing was held this afternoon before Justice William M. Northrup, the girl taking the stand and relating the story of the automobile ride last Saturday night which began at her home and ended in a bloodied spot in the Emery district. Richey, who was the asserted attempt to assassinate her took place.

EXPLOSION VICTIM

(EXCLUSIVE DISPATCH)
SAN DIEGO, Jan. 7.—Caught by an explosion of gasoline vapor in her home this morning, Mrs. M. J. Saxo, 3227 Hamilton street, was so severely burned that it was necessary to transfer her to the hospital for treatment. Mrs. Saxo, according to reports to the fire department, was cooking when the explosion occurred, and while the flames were arising from the liquid, she lit a match to light a gas heater. Richey's bail was fixed at \$2000 cash and he was taken back to the County Jail.

FILE DAMAGE SUIT
AGAINST NEWSPAPER

(EXCLUSIVE DISPATCH)
OXNARD, Jan. 7.—In a suit filed in Superior Court at Ventura, J. N. Jimenez and Jose Jimenez, owners of Jimenez Brothers Furniture Company here, one of the largest in the county, seek \$10,000 damages from the local Mexican newspaper. In the complaint filed through their attorney, Charles F. Blackstone, Jimenez Brothers charge that the newspaper published a "dishonest and untrue" article similar to the one which was published in the Ventura Herald, which stated that the Jimenezs were "starving to death."

FAVOR REVIVAL OF
OLD COUNTY FAIR

(EXCLUSIVE DISPATCH)
CORCORAN, Jan. 7.—Revival of the annual Kings county fairs, held for twenty years but recently discontinued, was the subject of much discussion at a joint meeting of the Kings County Chamber of Commerce and the Corcoran Chamber of Commerce held here last night. A large attendance of the fair was the subject of much discussion.

SELECT PREACHER VICTIMS

(LOCAL CORRESPONDENCE)
POMONA, Jan. 7.—Pomona ministers were the main sufferers last night when sneak thieves again became active after a long period of inactivity. The homes of Rev. Reid A. Liverett, 378 Garfield avenue, and Paul Ellsworth, 235 Bent street, were robbed while an unsuccessful attempt was made to enter the home of Rev. Fletcher G. Watson on Bent street. In the latter case security beamed windows prevented entry.

HAVE EPIDEMIC OF
SECRET MARRIAGES

(LOCAL CORRESPONDENCE)
CORCORAN, Jan. 7.—The epidemic of matrimony which broke out among the younger set of this city during the holiday season seems to have no bounds, discovery being made daily of new victims of the darts of Cupid. The latest discovery is of the secret wedding of Margaret Helen Eney, 235 Bent street, and Carl Merrill Stanley of this city, a graduate of the State College of Kansas, and holding a responsible position here with the Marland Oil Company. The newly wedded pair were going to Madera, where they secured a license and were married on New Year's Day.

Kern County Pioneer Came to California Before Boom
Days of '49 as Member of Historic Emigrant
Train from Missouri

(EXCLUSIVE DISPATCH)

BAKERSFIELD, Jan. 7.—Johnnie Wheeler Green, pioneer of California since 1846, and a resident of Bakersfield and Kern county for thirty-four years, died yesterday at his home, 610 M street, breaking the thread of one of the most colorful lives in the history of California. Funeral services will be held tomorrow morning at 10:30.

Born in Cedar county, Mo., on January 8, 1842, Mr. Green would have been 84 years of age tomorrow and had lived in California since 1846. He came to this state in 1846 with his father, John D. Green, who led a party of 150 persons from Missouri to California.

RECALLS OLD CASE

Rancher, Victim of Deed Forger,
Sues for Loss

(EXCLUSIVE DISPATCH)
SANTA ANA, Jan. 7.—Echoes of the famous Fairview deed forgery, which sent Samuel Hansen to the State prison, were heard today in Superior Judge R. V. Williams' court, where two of Hansen's sons, John Otto and J. H. McDuffie, were embroiled in a damage suit growing out of the forgery and its results.

Some time after McDuffie purchased the ranch from Hansen and was given a deed to it, he exchanged the property to Otto for property at Delhi, valued at \$3500. Otto moved to the Fairview ranch, built himself a six-room house, and made other improvements, including the planting of 113 fruit trees. That was in 1920.

Two years later John Kimmonth of Joplin, Mo., appeared on the scene, claiming, and subsequently proved the claim, that he had owned the ranch for thirty years, and that he had never seen it, and had come west to investigate a cessation of his title. Hansen's forgery of the deed had placed him on record as the owner so the tax bills went to him and his successors.

Kimmonth's arrival resulted in criminal prosecution of Hansen, who was located after a months' search. Hansen was convicted and sent to San Quentin.

HOLD JAPANESE FOR
RECKLESS DRIVING

POMONA, Jan. 7.—K. Sakamato, Japanese gardener of Pomona, is being held in the City Jail under \$1000 bond, after a complaint was sworn against him by Justice White at midnight last night, had been sworn to by W. H. Loyer of Redlands. According to Loyer, the Japanese was driving his car toward Pomona in a very reckless manner and as he passed Loyer's car suddenly careened and side-swiped the Loyer machine.

Evidently not thinking this sufficient Loyer stated that Sakamato, who always turned his car around and around the block, went to the Japanese firing squad at Tia Juana recently, it became known here today.

The bandit, whose real name is believed to have been Martinez, but who was also known as Beltan and Ortiz, was taken into custody in Lower California after a high way robbery. The finger-print system was used to identify him. He was tried, found guilty and sentenced to be executed. According to the Mexican custom, the "kid" was forced to die his own grave and then faced the squad of Mexican soldiers.

In November, 1924, the bandit stole an automobile in South Pasadena. Driving through Alhambra, he was halted by Officers Charles Malone and John Connors. A running gun battle ensued in which both local police were slightly wounded. The "kid" escaped.

OFFICIAL VOTE LIST

Alhambra Shows Increase in
Registrations

(LOCAL CORRESPONDENCE)
ALHAMBRA, Jan. 7.—This city has 10,327 registered voters, according to figures tabulated today by the City Clerk's office. The latest count was made in connection with the check of the annexation petitions recently filed. There were said to have been more than 1400 signatures on these petitions, more than enough to secure an election. According to the law, signatures of at least one-fourth of the total voters must appear on petitions before an election is called.

City Clerk Wallace and his staff are checking each name on the petitions and expect to have a report ready for the meeting of the City Commission on the 18th inst., at which time it is thought an election date on the annexation question will be set.

AUTO COLLISION IS
FATAL TO DRIVER

(EXCLUSIVE DISPATCH)
SANTA MARIA, Jan. 7.—M. F. Garcia, 22 years of age, died at a local hospital at 10 o'clock this morning from injuries sustained in a collision between two delivery trucks at the intersection of Church and Pine streets.

The accident occurred at 8 o'clock this morning and the victim of the crash passed away two hours later.

George C. Gibbs was driver of the laundry wagon of which Garcia was an occupant. John Hebert was the driver of the other truck in the collision, which was the property of the Coast Wholesale Grocery Company. Both drivers escaped injury.

Garcia is survived by a widow and 7 months' old son. His parents, Mr. and Mrs. T. Garcia, reside at 606 West Church street.

UNION OIL RATE
OF DIVIDEND UP

Will Pay 50 Cents Per Share
Quarterly in Future

Company Has Generous Rec-
ord of Distribution

Profits and Production Show
Large Amounts

Increasing the quarterly di-
vidend rate 5 cents a share, the
board of directors of the Union Oil
Company of California yesterday
declared a quarterly dividend of
50 cents a share to stockholders
of record at Los Angeles and New
York at the close of business on
the 16th inst., according to an
announcement of John McPeak,
secretary of the board. The stock
market has been expecting for
some time an increase in the
annual rate from \$1.80 to \$2 a
share.

The authorized capital stock
of the Union Oil Company of Cal-
ifornia is \$125,000,000, par value
\$25,394,590,000 of which is now
outstanding. The authorized cap-
ital stock was increased from \$100-
000,000 in February, 1924, and the
par value was reduced from \$100
in July of that year, four new
shares being issued for each old
share.

The dividend rate on \$100 par
value shares was increased from 6
per cent to 7 1/2 per cent per an-
num in October, 1910. This rate
was paid in 1911 and 1912, and
in 1913 the rate was reduced to
4 1/2 per cent. In 1914 and 1915 no
dividends were paid, and when
dividends were resumed in 1916,
the rate was 6 per cent. In 1917,
the rate of 9 per cent prevailed
and in 1918 and 1919, 10 per cent;
1920, 10 1/2 per cent; 1921 and
1922, 12 per cent, and in 1923
and 1924, 15 per cent.

The initial dividend of 45 cents
on the \$25 par value shares was
paid February 10, last, and there-
after quarterly until the action
of the board yesterday increased
the quarterly rate to 50 cents.
The company paid extra dividends
of 1 per cent quarterly from Jan-
uary 1, 1917, to December 31, 1922,
inclusive, and paid stock dividends
of 1 per cent in March, 1918, and
80 per cent in December, 1920.

Union Oil Associates owns 57.16
per cent of the outstanding cap-
ital stock of the Union Oil Com-
pany of California. During 1925,
the stock sold on the Los An-
geles Exchange at a high of
43 1/4 to a low of 33 1/4. In an-
ticipation of favorable action by
the board of directors on the in-
crease in the dividend rate, the
stock advanced last week to a
high of 41 1/4, and closed on the
16th at 40 1/4, a net advance of 4 1/4.

Net profits of the Union Oil
Company for the first nine months
of 1925, the latest figures avail-
able, were approximately \$5,750-
000, or the equivalent of \$2.32 a
share on the stock outstanding,
which is \$5,000,000, or 2 1/2
a share in the corresponding pe-
riod of 1924.

Production of crude oil by the
Union Oil Company and controlled
companies for the nine months
approximated 11,150,000 barrels, a
decrease of 50,000 barrels from
the corresponding period of the
previous year. Sales of crude oil
and refined products amounted
approximately to \$56,750,000, an
increase in value of \$6,050,000.

BY ARTHUR W. KIDDY
BY WIRELESS—EXCLUSIVE DISPATCH
(Copyright, 1926, by New York Evening Post, Inc.)
LONDON, Jan. 7.—Markets to-
day displayed a quiet, but improv-
ing, tone.

Gift-edged stocks were better
because of the apparent easing of
the monetary situation on both
sides of the Atlantic.

Home railway shares hardened
on the hopes of a slight revival in
trade.

To active trading, the oil shares
were irregular, with Lagos easier
on realizations.

Stubborn shares were still under
a cloud and appear as though
they will sag further before a
fresh rise is initiated.

The newspapers gave some prom-
inence to the recent speech of the
future President of Brazil in which
he indicated a desire to pursue
a policy of insuring the stability of
Brazilian exchange.

MARINE FORMS STOCK POOL
Shares Deposited in Trust Agreement to Forestall
Market Buying for Control; Dividend Paid

BY EARLE E. CROWE

Another California oil company has taken steps to prevent control
passing to outside interests. Following the course adopted by the
Union Oil Company several years ago when the Union Oil Associates
was formed to block absorption by the Royal Dutch-Shell group, the
Marine Corporation, one of the strong independent oil companies in
Southern California, has effected a trust agreement by which voting
control resides in three officers of the company.

More than 60 per cent of the
stock has been deposited under the
trust agreement, it was announced
yesterday by D. M. Smith, presi-
dent, and one of the three trust-
ees. The other two are Lyman R.
McPhee and J. B. McKinnis, both
officers of the company.

RUMORS QUASHED

This action effectually silences
rumors that the company will pass
into other hands through the ac-
tion of the stock market. Several
times in the last several
months, the heavy volume of trans-
actions in Marine on the Los An-
geles Stock Exchange has inspired
stories to the effect that Pacific
Oil, United Oil and other com-
panies were accumulating the
stock with the object of obtaining
control.

Of equal importance was the
declaration by the directors yester-
day of the regular monthly divid-
end of 2 cents per share, payable the
15th inst. to stockholders of record
the 15th inst. Early last month,
a break in the market price to a
point below 1.30 prompted reports
that the decline of the Marine pro-
duction and the unsatisfactory
state of the gasoline market might
impel a reduction in the dividend
at the January meeting. In refuta-
tion of this report the stock im-
mediately afterward began an up-
ward climb, and is now selling
around 1.45.

MAY HELP SALE

Production now is running
around 900,000 barrels, according to
figures which compare with a
high of more than 1,000,000 barrels.
The company's refinery is market-
ing Marine gasoline through a re-
cently expanded chain of service
stations, and reports satisfactory
progress in sales volume.

While the trust agreement pre-
vents outside interest from buying
control of the company through the
open market, it is not a logical
assumption, permits the trust-
ees to dispose of the majority
interest, where it will bring the
best price and benefit the company
as a whole.

For that matter, Union Oil As-
sociates, the holding company for
approximately 58 per cent of Union
Oil, provides the channel by which
the Union organization may enter
into a merger arrangement. The
vote of the Union Oil Associates
directors can easily swing such a
deal, although there apparently is
nothing brewing along this line for
the present.

HAS FUEL CONTRACT

The Marine properties might
well fit into the organizations of
several of the growing California
companies. Pacific Oil has been
mentioned as the favorite, because
of the presence of the Marine
board of several new independent
companies. With the Pacific Oil Com-
pany, however, is now merged with
Standard Oil of California into a
new company under the manage-
ment of the Standard Oil execu-
tives. Presumably, the new com-
pany will assume the fuel-oil con-
tract executed between Marine and
Pacific by which the latter bought
the entire fuel-oil production of
the Marine refinery at 10 cents
above the posted price.

How the new Standard-Pacific
company will regard the fuel-oil
contract has not been learned in
the stock market, but it is more
than likely that the Standard Oil
refineries easily produce sufficient
fuel oil for the new company's
requirements. If the contract is
regarded as burdensome then it is
possible that its cancellation may
furnish the inducement to acquire
the Marine properties, provided a
favorable price can be obtained.

Another action taken at yester-
day's meeting was the election of
David M. Smith to the presidency
of the company as the result of the
resignation of E. D. Marr, who has
been resigned because of ill health.
Mr. Smith is one of the largest Cali-
fornia oil companies.

SHARES OF
PAPER FIRM
ANNOUNCED

Block of A. P. W. Stock,
One of Preferred, Two of
Common at \$154

Kydder, Peabody & Co., and
Mitchum, Tully & Co. are today of-
fering an issue of 15,000 shares of
7 per cent cumulative preferred
stock and 30,000 common stock of
the A. P. W. Paper Company, in
blocks of one share of preferred
and two shares of common, priced
at \$154 a block.

The A. P. W. Paper Company,
which was organized in 1877, is
the largest manufacturer of tissue
paper in the United States. Its
products are largely advertised
and "A. P. W." is one of the best
and most favorably known names
in the paper business. The com-
pany's plants and warehouses are
located at Albany, N. Y., and are
of modern fireproof construction
throughout. Equipment and
machinery are the most efficient
available.

All of the outstanding capital
stock of the A. P. W. Paper Com-
pany, Ltd., Canada, is owned by
the A. P. W. Paper Company,
giving it a 4 to 1 vote. The com-
pany's equipment and machinery
are the most efficient available.

Management will continue in the
hands of sons of the founder of
the business, who, with their as-
sociates, have been responsible for
its successful development over
many years.

Earnings of the company for the
past five years have averaged 3.25
times the preferred dividend re-
quirements, and for 1925 were ap-
proximately 4.40 times the pre-
ferred dividend requirements. Earnings
on the common stock for the last
five years have averaged \$2.57 per
share, and in 1925 were \$2.73 per
share. It is the intention of the
management to place the common
stock on a par with the preferred
of \$2 per share at an early date.

Trade Outlook
in Local Area
Held Promising

Bright prospects for the new
year are reported in Bradstreet's
survey of business in the Los
Angeles district for the first week
of 1926, which says:

"The new year has started with
good prospects. Wholesale trade
has had the usual quiet spell after
excellent holiday business. Women's
wear lines report good spring
and summer orders booked for
good season opening. Hotels cater-
ing to winter residents report in-
crease over year ago in guests
and reservations."

Figures Reveal
World Interest
in Radio Grows

[BY A. P. NIGHT WIRE]

WASHINGTON, Jan. 7.—The
world-wide interest in radio was
illustrated today in Commerce De-
partment figures showing that ra-
dio goods worth \$5,324,555 were
exported during the first eleven
months of 1925, as compared with
\$4,550,746 during the same period
of 1924.

Radio exports now constitute 12
per cent of the total foreign elec-
trical trade of the United States.
Another demonstration of the
popularity of radio was noted in a
Berlin trade report showing that
400,000 receivers will be shipped to

STeady Gain Noted in
California Business

[BY A. P. NIGHT WIRE]

SACRAMENTO, Jan. 7.—Evi-
dence of steadily increasing busi-
ness activity in California is con-
tained in figures given out today
by Edwin M. Daugherty, Commis-
sioner of Corporations, covering
the work of his department for
October and November last year.

The figures show that 434 per-
mits for the issuance and sale of
stock were granted in November,
compared with 388 in October, an
increase of forty-five. Despite the
holiday season, Commissioner
Daugherty predicted that Decem-
ber's figures would be large com-
pared with preceding months.

That there is also increased gen-
eral activity in the sale of securi-
ties is shown by the fact that
twenty-three brokers and 510
agents received licenses in No-
vember. Failure to comply with
permits was reflected in figures
showing 177 companies lost
their stock-selling privileges in
November when that number of
permits were revoked. In Octo-
ber 162 permits were revoked.

There has been some delay in
many instances in handling the
business of the department, the
commissioner said, chiefly due to
lack of room for additional help.
This difficulty shortly will be over-
come with adequate quarters given
the department, both in San Fran-
cisco and Los Angeles, he added.

DENMARK GRANTED
REVOLVING CREDIT

[BY A. P. NIGHT WIRE]

NEW YORK, Jan. 7.—A revolv-
ing credit of \$40,000,000 for one
year has been arranged by the Na-
tional Bank of Denmark with the
Bankers' Trust Company of New
York to provide sufficient foreign
balances for stabilization of ex-
change. The terms are understood
to be more favorable than a simi-
lar credit established with the Na-
tional City Bank last year.

What Is a Finance Company?

Able Banker Says it is Really
A Specialized Bank

Mr. A. W. Newton, Vice-President, First National Bank of
Chicago, writing in the Bankers' Magazine recently, says in
part: "In my opinion so-called Finance Company is really a
highly specialized bank. Like the bank, it has no merchan-
dise or machinery, its assets are liquid, but unlike the bank it
has no large single lines of credit, its risks being spread over a
large number of loans."

Representative of the soundest type of Finance Company in the United States
we are offering:

PACIFIC FINANCE CORPORATION
Non-Callable 6 1/2% Cumulative Preferred Stock
Important Investment Features

1. Assets of the Company total over \$20,000,000.
2. Net Income is from four different sources which is an impor-
tant safeguard.

3. This Preferred Stock ranks ahead of \$3,000,000 par value
Common Stock having a market value at the present time
of over \$4,900,000.

4. Net Earnings for 5 years have always been at the rate of at
least twice preferred dividend charges and for 1925 are at
the annual rate of over three times preferred dividend re-
quirements.

BOND QUOTATIONS

Prices Turn Up
(BY A. P. NIGHT WIRE)
NEW YORK, Jan. 7.—Over-
shadowing all other developments
in investment circles today was the
long-awaited increase to 4 per cent
in the New York Federal Reserve
discount rate. The announcement
an hour after the close of the
stock exchange, aroused wide-
spread interest among bond deal-
ers and created considerable activ-
ity in over-the-counter dealings.
Liberty Bonds particularly moving
toward lower levels.

The tighter credit conditions im-
posed by the change in the rate
had little effect on the day's ac-
tual bond trading. Prices followed
an upward course, with buying or-
ders scattered over a wide list of
foreign government and domestic
railroad, public utility and indus-
trial issues.

Special impetus to the advance
in the railroad group was given by
favorable news regarding the ear-
liers, including the announcement
of last year's record-breaking car
loadings, preliminary estimates of
higher December earnings and
publication of November figures
showing a substantial gain in net
income. Convertible bonds of the
Delaware and Hudson and Nor-
folk and Western—two roads in
which special merger and segrega-
tion developments are understood
to be pending—jumped 2 and 4
points, respectively, and the
great gains were recorded by Den-
ver and Rio Grande 5s, Peoria and
Eastern Income 4s, Iron Mountain
refunding 4s, Chesapeake and
Ohio convertible 5s and Frisco In-
come 6s.

Trading in foreign bonds was
marked by several points of
strength. French bonds were in
demand on indications that nego-
tiations for a debt settlement were
being pressed and Chilean issues were
strengthened by reports that a new
loan might be floated in the spring.

Austrian 7s also were strong.
Heavy oversubscription of the
\$14,472,000 Province of Buenos
Aires 7 1/2 per cent bond issue was
reported by the offering group
headed by Blair & Co. Allotments
will be parceled out to approxi-
mately 20 per cent of the amount
asked for. The success of the
issue aroused reports that American
bankers this year would underwrite
other South American loans ag-
gregating more than \$200,000,000,
many of which are now under dis-
cussion.

Following are yesterday's high, low and closing
prices of bonds in the New York Stock Exchange
and the total sale of each issue.

ON this page are pictured some out of the many outstand-
ing buildings behind Straus loans of 1925. These buildings
constitute a large part of the major construction of the year in
our large cities.

Since January 1, 1925, S. W. STRAUS & CO. have underwritten
bond issues ranging from \$150,000 to \$15,000,000 secured by
properties in 38 cities in 16 states and one province of the
Dominion of Canada. The total volume of our business ex-

ceeded that of any previous year by a large amount. A total
of \$28,794,000 in Straus Bonds were called and taken up at a
premium, which means that our clients not only received the
full par value of their bonds with interest to date, but in ad-
dition a profit of nearly \$1,000,000.

These facts are submitted as evidence of the confidence im-
posed by the investing public and the building industry in
S. W. STRAUS & CO.

Our current list describes a wide diversification of sound first mortgage bonds, in \$1,000, \$500 and \$100
denominations, yielding 5.75 to 6.40%. January investors should call or write for

6% to 7% Tax Free Income for Your January Funds

CALIFORNIA Street Improvement Bonds, issued for paving, installation of ornamental lighting and other public improvements, offer conservative investors the greatest tangible security with a 6% to 7% income, exempt from all Federal Income Tax and California Personal Property Taxes.

These bonds are an absolute lien on specific property, ranking ahead of all mortgages, present or future. As the bonds are issued for the exact cost of improvements, they represent but a small percentage of the value of the property, which in many instances, is over 100 times the amount of the bonds.

QUIRK BROTHERS are the oldest Street Improvement Bond house in California. Many years of successful operation are back of every bond purchased through this firm.

Indicative of the select character of QUIRK BROTHERS offerings are the bonds secured by property on the following prominent Los Angeles thoroughfares:

Hill Street—Santa Barbara Boulevard
Larchmont Boulevard—Van Ness Avenue
Ardmore Avenue

NEW YORK CURB

Utilities Active

(BY A. P. NIGHT WIRE)

NEW YORK, Jan. 7.—Revival of speculative interest in the public utility shares was one of the outstanding features of today's irregularly higher curb market.

Heavy buying of the gas and electric stocks was associated with rumors of new amalgamation and prospects of higher dividends by several companies during the coming year.

Lehigh Power was the spectacular performer, soaring 28 points to a new high record for all time at 221. United Light and Power A, which is expected to announce the acquisition of some new properties in the near future, jumped 5 1/4 points to 151 1/2, also a new top.

Strength of United Gas and Improvement, which attained a new top at 125, was based on rumors that the company had received a handsome offer for its Public Service of New Jersey holdings. Other strong spots in that group, including American Light and Traction, Engineers Public Service, and United Gas and Electric.

Glen Alden Coal closed more than 2 points higher at 164 and Lehigh Valley Coal showed a net gain of 1 3/4 at 44 3/4 after having sold above 45. Electrical Refrigeration gained a point to 48 on an increased volume of trading.

Heavy buying of Rickenbacker, based on reports of large orders for a new eight-cylinder model, sent that stock up about a point. Other motors were mixed. Stutz closed at a point lower. Further accumulation of Freshman, which advanced over a point to 21 1/2, featured the radio group.

In the oil group Carbide fell back nearly 3 points on profit taking, but the Lago issues showed small fractional gains on buying influenced by reports that all wells drilled to date have produced oil.

Gulf yielded over a point, but the other high-grade shares moved within narrow and irregular limits.

PURE WHISKY WINS REWARD

Judge Reduces Penalties As Two Boast They Sold Good Liquor

(EXCLUSIVE DISPATCH)

CHICAGO, Jan. 7.—Because Charles S. Young, a saloon-keeper, and Martin Johnson, a bartender of Aurora, Ill., boasted today that they dealt only in pure liquor, Judge Wilkerson in the United States District Court granted them leniency. "Selling good whisky is a circumstance in mitigation to a degree," said Judge Wilkerson, "and the fact that this happens years after the Volstead act became effective, tends to influence me toward leniency. Ordinarily the sentence would be six months 'in jail'; in this case it is thirty days for Young, while Johnson may be released upon payment of a fine of \$200."

Tell Plans to Build Largest Metal Airship

(BY A. P. NIGHT WIRE)

NEW YORK, Jan. 7.—Completion of designs for the largest metal-clad airship in the world, two and one-half times the size of the Shenandoah, to be built by the Aircraft Development Corporation at the Ford Airport, Dearborn, Mich., was announced tonight by Carl F. Fritzsche, general manager of the corporation.

Speaking at a meeting of the American Society of Mechanical Engineers, Mr. Fritzsche said the ship will be luxuriously equipped for commercial use, but in the event of war can be equipped for military purposes in forty-eight hours. Another smaller ship, one-tenth the size of the Shenandoah, also will be built, he said.

**FRONK SOUGHT
IN DOMINION****Bank Swindler Reported as
Seen in Portland****Check Kiter Goes in Auto
Won by Trade Fraud****New Statements Taken from
Two Other Suspects**

John Kenneth Fronk, for months pointed out as a financial wizard and a man of great wealth, but who fled from the city on December 28 with more than \$200,000 in cash after having swindled eight local banks out of \$274,000, probably has crossed the border into Canada, according to information now in the hands of the police.

The much-wanted "financier" was heard from early yesterday morning in Portland, Or. At the time, according to information given the Portland police by a woman visited by Fronk, he was driving an automobile bearing California license F-2941. This automobile is registered to Carl W. Gessler, who was interested in some of Fronk's business activities.

When interviewed by the police yesterday Gessler stated that Fronk traded automobiles with him several days before he left the city. At the time Fronk told him, Gessler says, that he intended driving to a near-by hot springs for a rest. Only yesterday Gessler discovered, he told the authorities, the automobile which he accepted in the trade with Fronk was not owned by the man and yesterday the machine was seized by some of Fronk's creditors.

NEW STATEMENTS

From what could be learned yesterday, Fronk drove out of the city on Wednesday, December 30, at about 9:30 p.m. He drove north up the coast, stopped in San Francisco, and then headed for Portland. Reports gathered by the police show that he intended to cross the border into Canada.

Most of yesterday was spent by Assistant Captain of Detectives Malheur, who under Captain of Detectives Finlayson, is in charge of the case, in checking up evidence and notifying witnesses for the grand jury today. At 10 o'clock Chief Deputy District Attorney Fitts will present the evidence to that body. The two sets of books, which formed the key to Fronk's check kiting activities, London, who was manager of the branch bank where Fronk "took up the slack" when his swindle scheme gave signs of weakening, also was re-examined by the police.

In the meantime other police officers yesterday continued to check up on the midnight looting of the Fronk office on the night he left the city. According to the information now in the hands of the police, Miss N. G. Brockett, Fronk's private secretary, and Marcus Clark, Fronk's attorney, and Gessler, called at the office and removed a number of papers.

Persons involved explained to the police that they took only personal documents owned by them. A check and receipt of all of Fronk's movements before he fled from the city were put under way yesterday by J. N. Pyles, chief of the Piles Detective Agency, Mr. Pyles, acting for one of the banks involved, reported yesterday he had found a number of other women who were involved with Fronk, but was unable to get any information on the man's present whereabouts.

It was learned yesterday that a detail of deputy sheriffs acting under instructions from Chief Criminal Deputy Wright are at the Mexican border and are checking on everyone attempting to cross the line. Fronk, it was learned by the officers, visited the race track in Mexico just a week before he fled and lost a large sum of money.

In the meantime the local authorities have asked the Portland police and all police departments in the north to be on the lookout for the wanted man. Fronk was for some time employed as a railroad clerk. Fronk may have had the fortune with him as he carried two bags, both of which appeared heavy.

**FRONK BOASTFUL
TO PORTLAND FRIENDS****(EXCLUSIVE DISPATCH)**

PORTLAND (Or.) Jan. 7.—J. K. Fronk, wanted by Los Angeles for fraudulent check operations, spent a pleasant and boastful Saturday night and Sunday in Portland. Fronk apparently was unconcerned by the fact that police officers throughout the country were searching for him.

An Oregon youth, having been born in Jackson county and reared in Albany and having worked for a number of years as a railroad employee in Portland, Fronk has many acquaintances here, and during his brief stay called on a number of them. He went automobile riding, he dined, and all the time he boasted, as say the friends, has always been his wont. However, now that they have learned of Fronk's suspected criminal tendencies, are quite indignant that he imposed himself upon them while in the city. On condition that he identify himself should not be disclosed, a young woman who was with Fronk much during his visit discussed it freely. Fronk stated that he was returning to Los Angeles from Seattle, his extensive business interests extending along the entire coast.

He boasted of these interests, of his financial success and intimate dealings with financial leaders. That he had become affluent as a prominent automobile dealer was his contention, as he modestly asserted that he believed he was worth more than \$250,000, all acquired in a short time. As if to support his statements, he exhibited a fat diamond on his finger. "Eight and one-half carats," he

Details of an asserted extortion plot of which her husband was the victim, told from the witness stand by Alma Bennett, beautiful motion-picture actress, caused Justice Wood yesterday to hold D. R. Vear and John J. Richards for trial in Superior Court under \$10,000 bail each. Both men are charged with robbery and extortion and the stellar witness against them was the motion picture actress. Her testimony was backed by that of her husband, Frank Bennett, to whom she is suing for divorce, her business manager, and her mother, Mrs. Doris Bennett.

They testified that on the morning of June 1, 1925, four men displaying badges came to their home at 108 South Arden Boulevard and forced their way inside. They found a small quantity of liquor, according to the testimony of the motion-picture actress and her parents.

The men informed Bennett that the finding of the liquor meant six months in jail. One of the men, Miss Bennett, her husband and her mother testified, drew Mr. Bennett to one side and asked him point blank how much he would pay to hush up the case.

Mr. Bennett agreed on \$500. Two of the men accompanied Mr. Bennett to the bank, according to the testimony, and there he cashed two checks for \$250 each, while the other two remained in the room. The agreement carried through. Upon their return from the bank, the four men left together. Vear and Richards were identified yesterday by the Bennetts as two of the men who invaded their home and extorted \$500 from Mr. Bennett.

The two suspects were arrested recently by Detective Lieutenants Sager and Lanning.

Vear, according to police, was as one time the captain and halfback of the Santa Clara football team and later a member of the Olympic gridiron squad. But he deserted the gridiron for hijacking, it is charged, and was arrested in San Francisco last December, together with Richards on such a charge.

They were convicted of second-degree robbery there, but the court in the Bay City suspended sentence and permitted the two prisoners to be removed to Los Angeles to face charges of extortion and robbery. It is charged that the two men met at the Bennett home to discuss the same tactics successfully with Thomas Parrett of 1817 South Hope street.

Miss Bennett recently appeared in the divorce courts as a principal witness in the divorce suit of her father, Doris Bennett. The latter was awarded a decree. Miss Bennett also has a divorce suit pending against her husband. This case was filed last October, and that he beat her and called her names, and that he failed to support her.

He added, however, that a great change in American public sentiment is now under way not only in reference to the reduction of crime but in relation to other matters pertaining to government.

"Among the causes that are combining to bring about this change, I want to stress especially the work being done by the newspapers in eliminating a study of the Constitution and the principles of government through their sponsorship of oratorical contests," said Mr. Whitman. "I believe these contests among high school pupils furnish one of the best methods ever devised for education in better citizenship. The hope of the country lies with our boys and girls and any agency whose aim is to develop them into good citizens should have the support of every right-thinking citizen."

HARDER CASE TO JURY TODAY
Fricke Attacks Defense in Plea of Insanity

Asserted Discrepancies of Wife's Story Cited

Testimony in Murder Trial Ended by Agreement

Taking testimony in the case of Leland T. Harder, charged with the murder of J. W. Suther, whom he suspected of being intimate with his wife, closed unexpectedly by agreement of both sides at the afternoon recess in Judge Keetch's court yesterday. The State had planned to put on two more witnesses in rebuttal, and the defense had two character witnesses remaining.

Closing argument was begun by Asst. Dist. Atty. Fricke. He attacked the defense that Harder had gone insane over his wife's affair with Suther. Mrs. Harder had testified Wednesday that her husband had become irrational after discovering her relationship with Suther.

HARDER EMBARRASSED
Mrs. Harder had testified, Fricke declared, that her husband had been acting strangely the morning of the murder. Nevertheless, he declared, she permitted him to take a friend's baby, who had stayed overnight with them, alone in his car to drive three miles to the child's home.

Harder finished his testimony earlier in the day. He testified that when he came home on September 28, last, the day before the shooting, to find the door locked and Suther in the house, he had made discoveries that agitated him greatly. Cross-examined, he refused to go into details for the first time showing signs of embarrassment.

REPUTATION TOLD
Vernon Coffey, brother of Mrs. Harder, and Mrs. C. J. Stevens, a neighbor of Monrovia, testified for the defense. Mrs. Stevens said she and a friend had seen Harder the night before the shooting, and remarked that he seemed "either drunk or crazy." Three business men of Monrovia, Bernard Hardesty, Victor R. Bush and Lawrence D. Wilcox, all members of the American Legion, testified that Harder had a reputation as a peaceable and quiet man.

Ed King, investigator for the District Attorney's office, testified in rebuttal for the State as an expert on firearms with regard to the automatic pistol with which Suther had been killed. The case is expected to go to the jury late today.

Judges Chosen for Stock Class at Horse Show
F. H. Rixby of Long Beach, Edward Newhall of Los Angeles and John Forster of San Juan Capistrano were invited yesterday to be judges of the stock horse class of the 8th National Horse Show, to be conducted at the Ambassador Hotel the week of February 8. Tom Mason was selected as ringmaster. These appointments will be announced at a meeting of the committees at luncheon at the Ambassador today. It was decided to raise the stakes for roadster stock horses from \$1000 to \$1500. At the suggestion of Carlton Burke, the question of admitting mares to the stock horse classes was taken under advisement.

The sale of horses for the event was reported as far ahead of previous years and there are, it was said, only a few left.

OIL LEADERS TO MEET HERE
Three Thousand Delegates Will Gather This Month at Petroleum Institute's First Coast Session

More than 3000 leaders of the oil industry are to gather in Los Angeles on the 15th inst. for the sixth annual session of the American Petroleum Institute. Plans completed yesterday by representatives of the Chamber of Mines and Oils indicate that the convention will be the most largely attended and the most important in the history of the organization. The program shows that practically every problem and phase of the industry will be discussed.

Of special significance is the fact that this is the first time oil drilling and production methods and equipment, oil as a fuel and oil transportation by railroad. The afternoon session will be devoted to the standardization of petroleum divisions of the Institute and the American Petroleum Institute of Mining and Metallurgical Engineers, with the program prepared by the latter organization.

Of special interest are expected to be the discussions of special products from petroleum and the relation between the oil industry and the public.

The annual dinner will occur Thursday night, with emphasis placed on the announcement that there will be no speeches. In addition to the business meetings, a full program of social diversions has been arranged. The visitors are to be entertained with automobile rides through the oil fields and orange groves, a golf tournament and several unannounced features.

Members of the Los Angeles Chamber of Mines and Oils executive committee on reception and entertainment include: W. N. Rogers, chairman; H. J. Barneson, W. H. Copp, Edward Higgins, Harry A. Kestbaum, Neale C. Needham, Philip Patchin and Norval White.

Officers of the American Petroleum Institute are: Ed. J. Pew, president; Edward Pitzer, vice-president; E. W. Clark, Los Angeles, vice-president; Amos L. Beatty, Needham, Philip Patchin and Norval White.

On Tuesday evening Mark L. Requa will deliver a memorial address honoring the late Alfred C. Bedford.

SURVEY FOR SCENIC ROAD WORK BEGUN
Topanga Highway Held Badly in Need of Repairs and Improvement

At the request of the County Supervisors a crew of men under County Commissioner of Roads Jones has started a survey of repairs needed to improve Topanga Canyon road, between Ventura Boulevard and Roosevelt Highway. It is also expected that City Engineer Shaw and District Engineer Cooke of the San Fernando Valley will start a survey shortly of that part of the road lying within the corporation limits, and that later improvement work will be conducted simultaneously by city and county.

Members of the Topanga Canyon Improvement Association declare the road is badly in need of repairs and improvement because of the tremendous increase in traffic over the scenic highway. Surveys made by the association show that many turns are too sharp to handle, expeditiously the thousands of cars using the road. The road in many places the highway is too narrow; that several steep grades may be eliminated or materially reduced and that the entire road needs concreting.

In its present condition, members of the association point out, the canyon road is dangerous and many accidents have occurred which might have been avoided had the road been improved.

Old-Timers of Sheriff Office Hold Reunion
Veterans of the Sheriff's office had luncheon yesterday at Hall's Tavern. Fourth and Hill streets, in celebration of the nineteenth anniversary of the accession of William A. Hammel as Sheriff. All thirteen of those present entered the service that day or earlier. Sheriff Hammel was invited, but could not be present as he was in San Jose.

Sheriff Traeger, Under-Sheriff Boncall, Martin Aguirre, C. C. Bonnell, Daniel Crowley, Thomas Lancaster, B. L. Cox, J. W. Murphy, W. H. Osterholt, B. E. Rice, Mr. and Mrs. George Sheehy and R. H. Wright were the guests. Brief speeches were made by Sheriff Traeger and Under-Sheriff Boncall, and by Martin Aguirre, the most colorful figure of them all. Aguirre has been Sheriff of the County of San Quentin, in addition to saving many lives in a flood of the Los Angeles River. Sheriff Traeger was eligible to attend by having been a bookkeeper in the County Jail under Sheriff Hammel.

What Women are Doing
By Myra Nye

The first survey of homes ever attempted and completed in the history of nations is now ended in the United States, and a compilation of the thousands of answers to a questionnaire regarding conditions in the American home has been made by the president of the General Federation of Women's Clubs, Mrs. John T. Sherman, who initiated the plan and who was aided by President Coolidge and the Department of States in carrying it through.

One of the questions asked was "What do you prefer in your home?" and the many answers reveal the fact that women prefer luxuries to conveniences. They like to be relieved from the monotony of their lives rather than from the drudgery, if they cannot be freed from both. The average American housewife prefers an automobile and a telephone rather than the most plumbing arrangements in her home, for they offer relief from monotony that has driven many of her predecessors into insane asylums, as one woman explained.

The federation's findings were written by Mrs. Sherman in the "Women's Home Companion" and are of interest to every club woman in the United States. The housewife does not mind washing stacks of dishes under the glow of an electric light globe that is not so much, if she can look forward to some pleasure when they are put away in the cupboard. But the task doubles or triples if she must do it by the smoky dim light of a kerosene lamp. She does the task cheerily if she knows that at the completion of it she may sit down and chat with the telephone with neighbor five miles away. She will beat rugs for an hour if the evening brings the relaxation of an automobile drive.

From many angles the survey illuminates and is useful in its results and Mrs. Sherman stated in her talk to Los Angeles women at the Biltmore a short time ago, that she believed California had the compiled facts would be a tool for accomplishing great work in the future. The survey has found that there are 100 million families in the United States, and 68 per cent of them were equipped with telephones.

Statistics made by the federation covered 445,987 homes scattered through 237 communities. In 49 per cent of the homes it was found that there were at least two washbasins and water had to be carried in and out, and 25 per cent of them were not even equipped with kitchen sinks. But 87 per cent had electric light and 72 per cent were equipped with electric fans.

Radios were found in 17.6 per cent of the homes, pianos in 45 per cent, phonographs in 59 per cent. In discussing the high percentage of homes equipped with automobiles and telephones, but not with plumbing, Mrs. Sherman declared:

"Materialists will say that the fault lies with the men. But we club women who study conditions from the inside, know that the situation better. Women no longer undervalue their services in the home. They run their homes better, and have more personal allowances to spend as they like. "Then why do they choose luxuries instead of conveniences? Why does the automobile take precedence over the stationary tub, the telephone over the vacuum cleaner and the radio over the power-run sewing machine? "Because the housewife for generations has sought to escape from the monotony rather than from the drudgery of her lot. She can and does endure toil, but she cannot endure patiently and cheerfully; but she breaks physically and nervously under monotony. The automobile, the telephone and the talking machine or radio offer the modern home-maker the escape from monotony which her predecessors into insane asylums."

Exchange of Programs
Lillian Burkhardt Goldsmith and Mrs. William Ernest Mabes, who are scheduled to give the programs for the next two Mondays for the Greater Los Angeles Club, have exchanged their dates for presentation. In place of Mrs. Goldsmith's program for next Monday, "Reviews of Modern Short Stories, Plays and Poems," Mrs. Mabes will give a lecture on "Evolution of the Folk Songs and Modern Hymnology." She will be assisted by Francis Hoffman, basso. The 18th inst. Mrs. Goldsmith will give her lecture on "Nature Guiding."

Oberlin Luncheon
"Nature Guiding" will be the subject of Miss Helen Pratt at the Oberlin luncheon to be given tomorrow in the French room of the Broadway Department Store at 12:30 p.m. Harold K. Weis is president.

Pio Pico Club
The activities of the Pio Pico Woman's Club were interestingly presented by the various chapters at the last meeting, when Mrs. Jack Swain, president, called for the reports.

One of the activities of more than local interest was the donation toward the Father Junipero Serra bronze statue, which was recently unveiled in the "Memorial Garden" of the San Fernando Mission. Funds for this were raised by the club's "Mother's Day" sale. Mrs. Joseph G. Braun gave an interesting talk on "Responsibility and the American Home" in the department of the district. Mrs. Harry B. Logan presented two of her pupils, Barbara Rees and Dor-

othy Black, in costume and interpretative dances.

Pomona Ebell
Pomona Ebell will have the opportunity of enjoying an unusual entertainment tomorrow evening, when they will be the guests of the administration and faculty of Pomona College. This is a delightful courtesy extended to the club by the college and the fine spirit of cooperation is much appreciated. The program will consist of numbers by the Women's and Men's Glee clubs, a reading by Mr. Scott, a piano and organ concerto by Mr. Hartley and Mr. Oliver.

California Audubon
Spencer Turner, newly appointed forester for Los Angeles county, will speak before the California Audubon Society tomorrow for luncheon at the Chamber of Commerce Building, eighth floor.

Dr. Carr to Address Club
The Los Angeles Browning Society will meet today at 3:30 p.m. with Mrs. H. B. Bates, Holton Arms, 405 West Adams street. The speaker will be the subject of an address by Dr. H. W. Carr, head of the department of philosophy, Kings College, University of London.

HUSBAND FREED ON "OTHER MAN" CHARGE

Ferdinand Heim, who charged he came home unexpectedly and found another man in company of his wife, yesterday was awarded a divorce by Judge Hardy of Superior Court. Heim, who said he did not know the other man, declared the asserted intruder fled from the house, shouting "Don't shoot!" Heim didn't.

A 1200-CALORIE SAMPLE MENU

REDUCING LESSON NO. 5
Today you are still on your liquid or semiliquid diet, but beginning tomorrow you may go on a regular diet of 1200 calories daily. The majority of you will lose from one and one-half to two pounds per week on this. If you are a very short and do not have a lot of physical activity, you may have to go as low as 1000 calories in order to reduce this amount, and if you are just the reverse of this, you may have as high as 1500 to 1800 every day.

Let's talk about calories just a little more before we begin on our new diet. You may not hear people claim that they haven't studied anything about calories because they were not of mathematical turn of mind and it would be too difficult. It's not difficult at all. You don't have to have a mathematical mind, you can count in units of 25, 50 and 100, can't you? You only need to know the approximate values of foods and calories and count them approximately; this is fortunate, for it would be impossible to have exact figures of values because foods differ so in their preparation and the amounts served.

Most textbooks on the subject give the servings of foods in 100-calorie portions and the thing for you to do is to estimate the calorie values of the foods you like the best and eat oftenest. For instance, you want to know the calorie values of sugar, cream, fat, butter, bread, pastries, candy, fat meats and potatoes, don't you? Oh, I don't mention potatoes because I seldom meet a fat person who doesn't let me hear what you eat. (It isn't what you eat, it's what you make up your mind to eat—remember that?)

Now here's a list of foods and their calorie values, which will give you an inkling of how you averaged 3000 calories daily when you should have averaged around 1800: Three full cubes of sugar, 100 C.; one tablespoonful of fat, oil or butter, 100 C.; one slice of cake, 100 C.; one slice of pie, 100 C.; one medium-sized potato, 100 C.; twelve double peanuts, 100 C.; four walnuts, 100 C.; thick cream, 100 C.; evaporated milk, 100 C.; a good-sized chocolate cream, 100 C.; pie, double crust, one slice, 100 C.; four inches at the outer edge, 100 C.; (an average slice is 350 to 600 C., depending upon the richness of the crusts and filling); average ice cream, a heaping tablespoonful, 100 C.; lean meat and fish, three ounces, 100 C.; fat meat and fish, little over one ounce, 100 C.; one big egg, 100 C. (average-sized egg, 75 C.); cheese (cream cheese, one and one-fourth inch cube), 100 C.; cottage cheese, two heaping tablespoonfuls, 100 C.; milk, five ounces, 100 C.; evaporated milk, ten ounces, 100 C.; (one glassful of whole milk, 160 C., the same 1200-calorie diet, 100 C.); lettuce and spinach, a little over one pound, 100 C.; raw cabbage, three-fourths pound, 100 C.

If you have only ten or fifteen pounds to lose and want to congregate on the liquid or semiliquid diet until that is lost, you may, for you will have no ill effects from the system too long of some of the elements it must have, if you stay on the diet longer than a week or ten days.

For those of you who are ready to go on your 1200 calories, here's the sample 1200-calorie day. I suggest you divide your calories of 100 for breakfast, 400 for lunch, 100 tea time, 400 dinner and 200 for whatever you like to eat after dinner. It makes no difference. Breakfast: One large orange or

Chamber Heads Will be Elected on Wednesday

Twenty-two officers and directors of the Chamber of Commerce will be chosen for the ensuing year at the annual election of the chamber next Wednesday. Ballots have been sent out to all members and will be cast from 9 a.m. to 2 p.m. The election will be followed at 2:30 p.m. by the annual meeting. The nominees for the chief positions are: Arthur S. Otterloh, third vice-president and chairman of the committee on entertainment; Arthur Strasburger, chairman of the committee on retail trade; Crayle Thorpe, chairman of the agricultural, horticultural and live-stock committee; William Lacy, chairman of the committee in manufacturing and industries, and Lucius K. Chase, chairman of the committee on water and power, resources, reclamation and reforestation.

Four-Year-Old Hero's Rescue Effort in Vain

By a "Times" Staff Correspondent
LONG BEACH, Jan. 7.—Despite rescue efforts of a 4-year-old playmate, Siki Watanabe, year-old son near Temple street, in the Signal Hill district, died as the result of a fall into a hole near his home today.

The two children were playing when Siki tripped and fell with his face in a hole left by the removal of a water meter. The hole was filled with mud and a water and the child, stunned by his fall, was unable to struggle free.

His companion, whose name the police did not learn, dragged him out, but the child already had suffocated. The body is at Holton & Sons, undertakers.

BUILDERS STORE IS PLANNED AT BURBANK

[LOCAL CORRESPONDENCE]
BURBANK, Jan. 7.—Something new in the merchandising line is in process of completion for Burbank. It is to be a department store for the builder. A large company has been formed for the purpose of handling everything that goes into the new home from the first nail driven to the last drop of paint used in the decoration of the building. The company has taken a lease on property at 325 East San Fernando Road in the name of the Schuler Investment Company. Departments will be divided showing the decorating effects of wall paper and paints; a display booth for the plumbing fixtures; the electrical fixtures and building hardware and other.

BUY SNAPPY PLAY
WARNERS PURCHASE COMEDY FOR LUBITSCH

By Grace Kingsley
Ernest Lubitsch's next production for Warner Brothers will be "The Door Mat." The rights to this play, by Ethel Clifton and Brenda Fowler, were purchased yesterday by Jack L. Warner and Hennie Ziehm from Louis O. Asch, local theatrical producer. The play had its premiere here a few months ago at the Playhouse with Lillian Albertson in the leading role.

In securing "The Door Mat" for the screen, both the Warners and Mr. Lubitsch feel that his character touches and brightens can be molded into sparkling picture. Its story is of metropolitan society life, and it has all the various twists and turns that delight the ingenuity and technique of Lubitsch. It is of the same vein as his last two screen plays.

This picture will be the last comedy drama of light texture to be produced by Lubitsch, according to present plans, as the Warners intend that hereafter he shall devote his time and efforts exclusively to the making of huge spectacular epics of the type that won him recognition in Europe before coming to this country.

Work on the script for "The Door Mat" will begin at once, as early production and starting date are necessary. The cast will be announced shortly.

CONRAD NAGEL WILL REMAIN WITH M-G-M
Unless all the signs fail, Conrad Nagel will remain as a star with Metro-Goldwyn-Mayer. His contract has expired, but it seems altogether likely, according to reports, that he will sign another one within the next two days, by the terms of which he will remain with the organization for five years.

In case the contract now being considered is signed, Nagel will likely be featured in a certain type of story, the exact nature of which is not known.

CHORUS TO RESUME ITS WORK
Rehearsals for Beethoven Symphony Begin Tonight at Philharmonic

The Philharmonic Orchestra, which is preparing the Beethoven "Ninth Symphony," under the able leadership of its director, Squire Coop, for presentation with the Philharmonic Orchestra at the new Shrine Auditorium next April, has resumed rehearsals after a vacation period extending over the holidays.

Mr. Coop, who has just returned from a visit to Salt Lake City during which he conducted a series of performances of the oratorio, "The Messiah," for the twelfth consecutive year, speaks most interestingly of the work of the chorus.

"We resume," says Mr. Coop, "our rehearsals of the Beethoven 'Ninth Symphony' on Friday, the 11th inst., and from now on to the time of performance in April we will have intensive rehearsals on Monday evenings for the male voices and on Friday evenings for the female voices, both of them at our quarters in the Philharmonic Auditorium."

"There is still an opportunity for a limited number of new applicants to enter the chorus. If they have experience and the requisite standard of vocal ability and we are holding auditions each Monday and Friday evening for the accommodation of these aspirants. However, this opportunity will not exist for long and anyone desiring to join us in this great undertaking should not delay."

"An additional and instructive feature of the rehearsals hereafter will be provided," continued Mr. Coop, "in a series of talks given by leading musicians of Los Angeles that we are inviting to address the chorus on musical topics and the educational value of the address should be of great advantage to the members of the chorus."

French Comedy
Attracts Crowd to The Morosco

"Kiki" is packing them in at the Morosco these days. This wonderful success of David Belasco's adapted from the French of Andre Picard is a charming French comedy with a brilliance to the lines that is hard to surpass.

Charlotte Treadway as the little gamine from the streets of Paris, Kiki, who risks all for a place in the "Follies Monopoli," is adorable in this splendid part. It is the best that she has ever done and so true to life that you will hardly recognize the favorite Charlotte.

Garvin Gordon as Victor Renal the manager of the "Follies Monopoli," must have Kiki at home and then finds it impossible to get rid of her. "Kiki" is a play any one of the enjoy seeing twice.

Other members of the cast are Richard La Salle, Ann Mackay, J. Morris Foster, Glenda Farrell, Joseph Egerton, Jane Morgan, Will H. Gregory, Thomas Miller, Harry Hoyt, Margaret Powell, Dorothy Gardner, Barbara Thomas and Caroline Beauchamp.

SOUSA AND LANDIS CREATE ENTHUSIASM
Handmaster and King of Baseball Share Tribute of Huge Audience

BY ISABEL MORSE JONES
Two American institutions joined hands when John Philip Sousa, commander of the country's most famous band, grasped the hand of Judge Landis, king of baseball, on the stage of the Philharmonic Auditorium last night.

A packed house greeted the veteran leader as he stepped onto the platform to open the first evening concert of his series of six in Los Angeles. The audience broke into cheers when he paid a graceful compliment to the visiting baseball official by presenting him with a new Sousa march entitled "The National Game," which was dedicated to the Judge.

Judge Landis responded with: "To be in Southern California in January can be put up with in a pinch, but to be here in the company of my old young friend" (shaking hands with the bandmaster) "is the perfection of harmony."

Opening with the "Robespierre" overture by Litolf the huge band seemed like a greatly enlarged orchestra with the place of the strings and the many additional brass instruments increasing the volume. Encouraged by the volume of the music, the Sousa band men were noticeably young this year. Their leader will always be young.

Thirty-five years he has been piloting America's most popular band and he is as keen about playing his public as ever. Yesterday he gave three concerts, one for school children, matinee and the evening performance. Nothing has doubled his last performance with innumerable encores.

One of the most interesting figures in the whole organization is the bass drummer. He must have been in the original Marine Band which Sousa commanded for he swings his stick with a vigor that belies his white hair and adds a twinkle above his head for good measure.

There will be a matinee and evening concert by Sousa's Band today and tomorrow.

THEODORE ROBERTS RETURNING TO SCREEN—IN WHEELCHAIR
Fate plays strange tricks on mankind, but they are not all unhappy ones.

Fate took Theodore Roberts off the screen when he was stricken almost two years ago while making a personal appearance in Pittsburgh, and put him in a wheelchair.

And now, strangely enough, Fate has made his wheelchair the medium of bringing him back to the screen.

For Roberts, his famous cigar and all, is returning to the screen.

He will return to work next week at the Paramount studio in a picture co-starring Betty Bronson and Ricardo Cortez, in a wheelchair!

Announcement to this effect was made yesterday by E. P. Schubert, associate producer for Paramount.

Screen Stars Seek Careers on The Stage
Since Bert Lytell has demonstrated by his big hit in "Silence" at the Mason, that a screen star can score on the speaking stage, many Hollywood celebrities are pondering on the matter of taking the leap from screen to stage.

Screen stars, particularly the ones who came to the pictures from the legitimate, generally admit that they prefer the stage to the screen and are only kept at the studios by the tremendous financial emoluments accruing from their picture work.

The inspiration that an audience affords is, of course, lacking in screen work and now that Lytell has shown that it can be done, we may expect to see more Hollywood star personalities twinkling behind the local footlights.

Neely Edwards to Free-Lance
The red-letter day in Neely Edwards' life will always be the 18th inst. On that day, this former Opium headline's contract with Universal will expire and he will enter the free-lance list.

Having just recently completed the starring role in "Do or Bust," Neely was immediately elected for the featured character-ization in "A Close Shave," which is now being filmed.

For the past year, since his announced retirement from the stage and his permanent entry into the screen, he has repeatedly received offers from various producers in Hollywood to enact the comedy lead in productions. However, his previous contract with Carl Laemmle precluded his giving but scant consideration to outsiders.

LOCAL LAUGHS

Each week The Times produces a film entitled "Local Laughs," consisting of the fifteen best jokes submitted by local people. Weekly prizes are paid of \$1, \$5, \$10, and twenty of \$1 each. A list of theaters showing the film, together with the names of the winners, are given daily in a column in The Times. True-to-life jokes, and names and addresses of winners, appear only on the screen. Jokes involving immoral conduct will be given a place of honor on The Times comic page each week-day, and each of these contributors will receive a certificate of acknowledgment.

Motorist: This spark plug is busted all to pieces.
Wife: It won't show, will it?
Miss Dot Wickman, 5831 Ambrose avenue, City.

Tombsman maker: How would "GONE HOME" do?
Widow: All right—it was always the last place he ever thought of going.
R. Whitner, 885 N. 8th street, Colton.

"Hear the Hollywood scandal?"
"No."
"They took a dozen stills in the movie studio."
Mr. Wm. M. Wiley, Miramar Hotel, Santa Monica.

"They tell me he is a finished musician."
"Is that so. I knew the boys threatened him but hadn't heard they got him."
Geo. A. Foster, 1817 W. 48th street, City.

Sergeant: I can't enlist you, you've only got one eye.
Patriot: That doesn't matter. You have to shoot with one eye closed anyway.
L. Young, 318 E. South St. Anaheim.

"What was Washington noted for?"
"He fought for freedom all his life and then went and got married."
M. Herman, 2633 Reservoir street, City.

Fowls are the most economical things a farmer keeps. For every grain of corn they give a peck.
P. O'Brien, 1382 W. 9th street, City.

"What does the golf ball do when it stops?"
"It looks round."
Alvina Richards, 1190 Victoria, City.
